

## Gettysburg Area High School Athletics Preseason paperwork checklist

In order to participate in Gettysburg Area School District Athletics, including offseason workouts, the following must be completed **AFTER JUNE 1st**  
**EACH YEAR:**

This packet can be found online at

<https://www.gettysburg.k12.pa.us/domain/329>

- Signed Athletic Regulations and Assumption of Risk Form
- Signed HIPAA release
- Signed Athletics Participation Waiver for Communicable Diseases Including COVID-19
- PIAA Comprehensive Pre-Participation Physical Evaluation Form (signed and dated AFTER June 1st)
  - Sections 1 - 6
    - Sections 1 - 5 must be completed by a parent/guardian
    - Section 6 must be completed by a physician

When an athlete plays in a second sport in the same school year they will need to fill out a recertification form from PIAA. \*\*This form does not get filled out until the start of the 2nd sports season.\*\*

## **GASD Athletic Regulations and Assumption of Risk**

My signature below signifies that I have read and understand the Gettysburg Area School District Athletic Handbook regulations. The handbook outlines GASD policies for academic eligibility, attendance, code of conduct, and fan/spectator expectations.

By its nature, participation in interscholastic athletics involves the risk of possible serious injury, including physical or mental impairments and even death, as well as the risk of transmission of infectious diseases. Although serious injuries are not common it is impossible to eliminate all risks. Participants have a responsibility to help reduce that risk. Participants must obey all safety rules, report all physical and hygiene problems to their coaches, practice proper personal hygiene, inspect their own equipment daily, follow a proper conditioning program and refrain from the use of illegal drugs or controlled substances. I also understand that if I need to see a doctor for an injury or illness while participating in GASD Athletics, I must provide the Athletic Trainer with written documentation from a physician in order to return to play.

Students, parents, and guardians should be aware that Sudden Cardiac Arrest is the leading cause of death among student-athletes during exercise in the United States and can only be detected by cardiovascular screening. While every student-athlete is required to have a medical exam by a licensed medical professional every 365 days in order to participate in GASD athletics programs, these medical exams do not typically include cardiovascular screenings. If a student experiences an injury/illness or change in his/her health status while participating on one of GASD sports teams, it is the responsibility of said student-athlete to inform his/her Head Coach and/or a Certified Athletic Trainer and adhere to the established injury management guidelines, which includes total rehabilitation and reassessments before being released to return to full participation.

Participation in any sport exposes the participant to the risk of concussion. A concussion is an injury to the brain caused by a direct or indirect blow to the head. All concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. Be aware that any student removed from a practice or competition due to a suspected concussion, will be unable to return to participation that day. After that day, written authorization from a physician (M.D. or D.O.) will be required in order for the student to return to participation.

The GASD Athletic Handbook is now available online in an attempt to conserve resources. We ask that all parents read the document prior to participation in school-sponsored athletics. Handbooks can be found online at the GASD Athletics website under "Athletics Handbook" or <https://www.gettysburg.k12.pa.us/Page/1429>. Hard copies are available upon request.

**HIPAA Release**

My signature below signifies that I have read the HIPAA information and give consent for FULL disclosure of \_\_\_\_\_ (print student athlete's name) personal health information and information in regards to any athletic injury they may sustain while participating in athletics at Gettysburg Area School District. Any athletic injury may be disclosed to the following individuals/ companies:

- GASD Coaches
- GASD Administration/ Student services
- GASD nurses
- GASD teachers (only to allow for any special accommodations)
- GASD insurance company
- GASD team physicians and their staff
- Athlete's personal insurance company
- Athlete's physicians and their office staff
- Parents of the above student-athlete

As the parent/ guardian, I understand that I may revoke this authorization/ consent at any time by notifying in writing to the school's athletic director.

**GETTYSBURG AREA SCHOOL DISTRICT**  
**Athletics Participation Waiver for Communicable Diseases Including COVID-19**

The COVID-19 pandemic has presented athletics/extracurricular activities across the world with a myriad of challenges. The COVID-19 virus is a highly contagious illness that primarily attacks the upper respiratory system. The virus that causes COVID-19 can infect people of all ages. Research from the Centers for Disease Control, among others, has found that while children do get infected by COVID-19, relatively few children with COVID-19 are hospitalized. However, some severe outcomes have been reported in children, and a child with a mild or even asymptomatic case of COVID-19 can spread the infection to others who may be far more vulnerable. While it is not possible to eliminate all risk of furthering the spread of COVID-19, the current science suggests there are many steps schools can take to reduce the risks to students, coaches, and their families.

GASD has developed and adopted an Athletics Reopening Plan, which aligns with the PDE Preliminary Guidance for Phased Reopening of Pre K to 12 schools. The plan has been approved by the GASD Board of Education and is posted on the District's website.

**Possible symptoms of COVID-19 as provided by the CDC:**

1. Any symptom may appear 2-14 days after exposure to the virus.
2. Fever or chills
3. Cough
4. Shortness of breath or difficulty breathing
5. Fatigue
6. Muscle or body aches
7. Headache
8. New loss of taste or smell
9. Sore throat
10. Congestion or runny nose
11. Nausea or vomiting
12. Diarrhea

**ANY STUDENT EXPERIENCING ANY OF THESE SYMPTOMS ARE TO NOT TO ATTEND ANY PRACTICES OR GAMES (in season or out of season), REGARDLESS OF A COVID-19 DIAGNOSIS.**

I understand that participating in interscholastic athletic programs, events, and activities may include possible exposure to a communicable disease including but not limited to MRSA, influenza, and COVID-19. While particular recommendations and personal discipline may reduce the risk, the risk of serious illness and death does exist. I knowingly and freely assume all such risks, both known and unknown, even if arising from the negligence of others, and assume full responsibility for my participation. I willingly agree to comply with the stated expectations put forth by the GASD to limit the exposure and spread of COVID-19 and other communicable diseases. We certify that our student is in good physical condition or believe our student to be in good physical condition and allow participation in this activity at our own risk.

**PIAA COMPREHENSIVE INITIAL  
PRE-PARTICIPATION PHYSICAL EVALUATION**

**INITIAL EVALUATION:** Prior to any student participating in Practices, Inter-School Practices, Scrimmages, and/or Contests, at any PIAA member school in any school year, the student is required to (1) complete a Comprehensive Initial Pre-Participation Physical Evaluation (CIPPE); and (2) have the appropriate person(s) complete the first six Sections of the CIPPE Form. Upon completion of Sections 1 and 2 by the parent/guardian; Sections 3, 4, and 5 by the student and parent/guardian; and Section 6 by an Authorized Medical Examiner (AME), those Sections must be turned in to the Principal, or the Principal's designee, of the student's school for retention by the school. The CIPPE may not be authorized earlier than June 1<sup>st</sup> and shall be effective, regardless of when performed during a school year, until the latter of the next May 31<sup>st</sup> or the conclusion of the spring sports season.

**SUBSEQUENT SPORT(S) IN THE SAME SCHOOL YEAR:** Following completion of a CIPPE, the same student seeking to participate in Practices, Inter-School Practices, Scrimmages, and/or Contests in subsequent sport(s) in the same school year, must complete Section 7 of this form and must turn in that Section to the Principal, or Principal's designee, of his or her school. The Principal, or the Principal's designee, will then determine whether Section 8 need be completed.

**SECTION 1: PERSONAL AND EMERGENCY INFORMATION**

**PERSONAL INFORMATION**

Spring Sports	Signature of Parent or Guardian
Baseball	
Boys' Lacrosse	
Girls' Lacrosse	
Softball	
Boys' Tennis	
Track & Field (Outdoor)	
Boys' Volleyball	
Other	

B. **Understanding of eligibility rules:** I hereby acknowledge that I am familiar with the requirements of PIAA concerning the eligibility of students at PIAA member schools to participate in Inter-School Practices, Scrimmages, and/or Contests involving PIAA member schools. Such requirements, which are posted on the PIAA Web site at [www.piaa.org](http://www.piaa.org), include, but are not necessarily limited to age, amateur status, school attendance, health, transfer from one school to another, season and out-of-season rules and regulations, semesters of attendance, seasons of sports participation, and academic performance.

Parent's/Guardian's Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

C. **Disclosure of records needed to determine eligibility:** To enable PIAA to determine whether the herein named student is eligible to participate in interscholastic athletics involving PIAA member schools, I hereby consent to the release to PIAA of any and all portions of school record files, beginning with the seventh grade, of the herein named student specifically including, without limiting the generality of the foregoing, birth and age records, name and residence address of parent(s) or guardian(s), residence address of the student, health records, academic work completed, grades received, and attendance data.

Parent's/Guardian's Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

D. **Permission to use name, likeness, and athletic information:** I consent to PIAA's use of the herein named student's name, likeness, and athletically related information in video broadcasts and re-broadcasts, webcasts and reports of Inter-School Practices, Scrimmages, and/or Contests, promotional literature of the Association, and other materials and releases related to interscholastic athletics.

Parent's/Guardian's Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

E. **Permission to administer emergency medical care:** I consent for an emergency medical care provider to administer any emergency medical care deemed advisable to the welfare of the herein named student while the student is practicing for or participating in Inter-School Practices, Scrimmages, and/or Contests. Further, this authorization permits, if reasonable efforts to contact me have been unsuccessful, physicians to hospitalize, secure appropriate consultation, to order injections, anesthesia (local, general, or both) or surgery for the herein named student. I hereby agree to pay for physicians' and/or surgeons' fees, hospital charges, and related expenses for such emergency medical care. I further give permission to the school's athletic administration, coaches and medical staff to consult with the Authorized Medical Professional who executes Section 6 regarding a medical condition or injury to the herein named student.

Parent's/Guardian's Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

F. **CONFIDENTIALITY:** The information on this CIPPE shall be treated as confidential by school personnel. It may be used by the school's athletic administration, coaches and medical staff to determine athletic eligibility, to identify medical conditions and injuries, and to promote safety and injury prevention. In the event of an emergency, the information contained in this CIPPE may be shared with emergency medical personnel. Information about an injury or medical condition will not be shared with the public or media without written consent of the parent(s) or guardian(s).

Parent's/Guardian's Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

### SECTION 3: UNDERSTANDING OF RISK OF CONCUSSION AND TRAUMATIC BRAIN INJURY

#### What is a concussion?

A concussion is a brain injury that:

- Is caused by a bump, blow, or jolt to the head or body.
- Can change the way a student's brain normally works.
- Can occur during Practices and/or Contests in any sport.
- Can happen even if a student has not lost consciousness.
- Can be serious even if a student has just been "dinged" or "had their bell rung."

All concussions are serious. A concussion can affect a student's ability to do schoolwork and other activities (such as playing video games, working on a computer, studying, driving, or exercising). Most students with a concussion get better, but it is important to give the concussed student's brain time to heal.

#### What are the symptoms of a concussion?

Concussions cannot be seen; however, in a potentially concussed student, **one or more** of the symptoms listed below may become apparent and/or that the student "doesn't feel right" soon after, a few days after, or even weeks after the injury.

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light or noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion

#### What should students do if they believe that they or someone else may have a concussion?

- **Students feeling any of the symptoms set forth above should immediately tell their Coach and their parents.** Also, if they notice any teammate evidencing such symptoms, they should immediately tell their Coach.
- **The student should be evaluated.** A licensed physician of medicine or osteopathic medicine (MD or DO), sufficiently familiar with current concussion management, should examine the student, determine whether the student has a concussion, and determine when the student is cleared to return to participate in interscholastic athletics.
- **Concussed students should give themselves time to get better.** If a student has sustained a concussion, the student's brain needs time to heal. While a concussed student's brain is still healing, that student is much more likely to have another concussion. Repeat concussions can increase the time it takes for an already concussed student to recover and may cause more damage to that student's brain. Such damage can have long term consequences. It is important that a concussed student rest and not return to play until the student receives permission from an MD or DO, sufficiently familiar with current concussion management, that the student is symptom-free.

**How can students prevent a concussion?** Every sport is different, but there are steps students can take to protect themselves.

- Use the proper sports equipment, including personal protective equipment. For equipment to properly protect a student, it must be:
  - The right equipment for the sport, position, or activity;
  - Worn correctly and the correct size and fit; and
  - Used every time the student Practices and/or competes.
- Follow the Coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.

**If a student believes they may have a concussion:** Don't hide it. Report it. Take time to recover.

I hereby acknowledge that I am familiar with the nature and risk of concussion and traumatic brain injury while participating in interscholastic athletics, including the risks associated with continuing to compete after a concussion or traumatic brain injury.

Student's Signature \_\_\_\_\_ Date \_\_\_\_/\_\_\_\_/\_\_\_\_

## SECTION 4: UNDERSTANDING OF SUDDEN CARDIAC ARREST SYMPTOMS AND WARNING SIGNS

### What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens blood stops flowing to the brain and other vital organs. SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

### How common is sudden cardiac arrest in the United States?

There are about 300,000 cardiac arrests outside hospitals each year. About 2,000 patients under 25 die of SCA each year.

### Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- dizziness
- lightheadedness
- shortness of breath
- difficulty breathing
- racing or fluttering heartbeat (palpitations)
- syncope (fainting)
- fatigue (extreme tiredness)
- weakness
- nausea
- vomiting
- chest pains

These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

### What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who have SCA die from it.

### Act 59 – the Sudden Cardiac Arrest Prevention Act (the Act)

The Act is intended to keep student-athletes safe while practicing or playing. The requirements of the Act are:

*Information about SCA symptoms and warning signs.*

- Every student-athlete and their parent or guardian must read and sign this form. It must be returned to the school before participation in any athletic activity. A new form must be signed and returned each school year.
- Schools may *also* hold informational meetings. The meetings can occur before each athletic season. Meetings may include student-athletes, parents, coaches and school officials. Schools may also want to include doctors, nurses, and athletic trainers.

*Removal from play/return to play*

- Any student-athlete who has signs or symptoms of SCA must be removed from play. The symptoms can happen before, during, or after activity. Play includes all athletic activity.
- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner, or cardiologist (heart doctor). The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed and understand the symptoms and warning signs of SCA.
