Notes from the Nurse

During the month of March, challenge your family to Go For The Greens! Make a conscious effort to increase the amount of fruits and vegetables your family eats. Experts recommend eating five or more servings every day. Be a role model for your children and make sure you not only serve plenty of fruits and vegetables, but eat them at meals and snack time with your children. The benefits will last them a lifetime!

Attention 5th grade parents; all students entering 6th grade must have a physical exam. It's not too early to schedule the physical. If you need a physical exam form, let me know and I will send one home with your child. Also: students entering 7th grade are required to have one dose of the Tdap vaccine (tetanus, diphtheria, acellular pertussis) and one dose of the meningitis vaccine. The sixth grade physical is a good time to get those vaccines.

If you received a notice that your child failed the vision screening please do not delay in getting an eye exam for your child.

If you have any questions, please feel free to call me at 334-6254, ext. 7127.
